### **DETAILED ACTION**

## Claim Objections

1. Claims 23, 29, 30, 31, 32, 33, 34, and 39 are objected to. These claims have been both amended and withdraw

## Claim Rejections - 35 USC § 103

2. Claims 1-3, 5, 8, 10-11, 14, and 47 - 49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Japanese patent abstract 09-054741 to Yoshihiro.

With regard to claim 1, Yoshihiro teaches a method of communicating between the first device (4) and any other device (4) comprising receiving input to the data stream carried along line 1, wherein all of the other devices (4) submit data to this main data line, wherein output is received by this device (4) based on the input from this device (ie, the conferee's communication will cause the other conferee's communication to respond to it) and the plurality of other devices (ie, those other participants in the conference). Although the "groupware" mentioned in the abstract is not specifically labeled as being a "pseudo-terminal", one of ordinary skill in the art would recognize that since the said groupware operates under the control of software, it would qualify as a "pseudoterminal".

With regard to claims 2-3, 5, 8, and 10-11, the member 2 can be considered to be a data stream splitter, and it would obviously have a manager used to operate it.

With regard to claims 14, 47, and 48 - 49, see the rejections above.

3. Claims 6, 7, 12 - 13, and 15 - 22 are rejected under 35 U.S.C. 103(a) as being

unpatentable over Japanese patent abstract 09-054741 to Yoshihiro in view of U.S. patent 5,337,412 to Baker et al.

Application/Control Number: 09/616,140

Art Unit: 2661

With regard to claims 6 – 7, Yoshirhiro et al teaches the invention as described above, but does not teach the use of a splitter table. The use of a table for storing values in this manner is described in Baker et al in col 5 lines 60+ to col 6 lines 24+. It would have been obvious to one of ordinary skill in the art at the time of the invention to have used a table to store the data values in Yoshihiro in light of the teachings of Baker et al in order to provide a means for sending the data to the proper conferees.

With regard to claim 12, see the use of a buffer in col 9 lines 60+ of Baker et al.

With regard to claim 13, see the rejection of claims 6 - 7 above.

With regard to claims 15 - 22, see the rejections above.

4. Claim 9 is allowed.

### Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing

date of this final action.

Application/Control Number: 09/616,140

Art Unit: 2661

6. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Steven Blount whose telephone number is 703-305-0319. The

examiner can normally be reached on M-F 9:00 - 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Mr. Chau Nguyen, can be reached on 571 – 272 - 3071. The fax phone number for

the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
